RE: JAMES MILLS AND WIFE,
'PHONE CALLS, etc.

As directed by Mr. Palzer, I interviewed Mrs. Nettie Blitz of 24 Abeel Street, New Brunswick, N.J., in an effort to learn whether or not Mrs. Mills had used her telephone on the night of the murder and whether Jim Mills had made inquiry as to whom his wife had 'phoned.

Mrs. Blitz claims that she had only been in the neighborhood about six months prior to the murder and that she was really not acquainted with many people in that section at the time. As she recalls, she did not know Mrs. Mills at all nor does she ever remember her having come into her place to 'phone.

She says she now knows who Jim Mills is and that he is now janitor of the Public School near her store. She says that Mills has never made inquiry concerning 'phone calls made from her place.

Mrs. Blitz conducts a combination grocery, green grocery, candy, etc. store at the above address. She claims that the Mills family do not trade at her store but she understands that they deal with Bernheimer on Nelson Street.

Mrs. Blitz simply has a party line her phone number being 123 W New Brunswick. The phone is located in the rear of the store and there is no phone in the store.

Respectfully submitted,

David Thompson
